

**PCDN and CAP Events 2022 - Be part of the new way of doing business in Preston, Wednesday 6th April 7pm-8pm**

### **Introducing Preston Solar Action.**

This joint seminar with Climate Action Preston on community energy schemes will be delivered by *Paul Phare, Development Manager at Energy4All* and Board member of several community energy organisations and *Kate Gilmartin, Community Energy Investment Lead, Lancashire County Council* and member of Greater Manchester Community Renewables'.

An uncertain energy future lies ahead of us and many communities across the UK have already invested in community-owned energy generation to reduce carbon emissions. Some groups are also addressing local fuel poverty. Collective action using the power we have as individuals and as a community can be an effective response. At this online event, PCDN in partnership with Climate Action Preston will introduce Preston Solar Action as one such opportunity. We'll give examples of similar projects in the UK and answer all your questions. The event will look at the process including finding suitable roofs, approaching organisations interested in installing solar panels on their buildings, and if there's enough interest and roofs, we can get the project off the ground in Preston. We're at the beginning of this journey. Please come along to our event to find out more about the project and how you can get involved. Please register your attendance via the Eventbrite page: <https://www.eventbrite.co.uk/e/302564888727>.

**This webinar is free to attend. All welcome. We're looking forward to starting this community journey and hope to see you there!**
